

Environmental Policy

The objective at A.D.I. and Bouty is to reduce its negative impact on the environment and public health, and excel in eco-responsible business practices with respect to its products, activities and services. To achieve and maintain this objective, A.D.I. and Bouty vouch to:

- Abide all laws, rules, or other environmental standard applicable to its products, activities and services;
- Consider full life-cycle analysis into the design of new products, aiming to reduce its negative impact on the environment and public health;
- Continuously improve its environmental performance and reduce its energy consumption by setting aggressive objectives and assessing its performance on a regular basis;
- Manage its dangerous goods actively and safely, and measure its impacts on the environment and public health;
- Actively participate in the management of waste products;
- Communicate and expect its suppliers to adopt eco-friendly business practices;
- Audit its environmental management system, and conduct a direction review on a yearly basis.
