| b : 24"   | e : 17 ½" |
| c : 31 ½" |           |

## Fauteuils OZ-4-52

|           |           |
|-----------|-----------|
| a : 23 ½" | f : 7 ¼"  |
| b : 24"   | g : 25"   |
| c : 31 ½" | h : 21 ¼" |
| d : 18"   | i : 17 ½" |
| e : 17 ½" | j : 9"    |

## Specifications

The ONZA Series consists of stackable chairs and armchairs on four legs, with or without handling grip or casters, chairs with a flip-up writing tablet and dolly. There are four seats per package.

The base frames are made of 3/4" diameter 14-gauge bent steel. Black plastic weld covers are fitted at structural joints and semi-spherical finishing caps at tube ends. Armrest support on armchair is part of the frame and reinforced with a 9/16" diameter steel rod.

The backrest is made of 5/8" diameter 14-gauge steel. The backrest and seat use the patented A.D.I. «suspension» technique: flexible woven plastic belts are slipped onto the frames and pulled taught. The belts are covered with fire retardant 3/4" thick foam. Fabric or vinyl covers complete the upholstery and are neatly held in place with zippers. The armrests are moulded polyurethane or soft PVC. The flip-up and removable writing tablet is made of 5/8" thick plywood (16 mm) covered with high-pressure laminate on both sides (black or grey). The contour of the tablet is PVC. It is attached to the hinge welded to the 3/4" diameter (19 mm) 14-gauge steel tube. The four legs are fitted with metal glides. The steel dolly can accommodate 20 chairs, armchairs or tables (2 pivoting and 2 fixed casters of 4" diameter (100 mm)). It is finished in black powder paint.
